2017
Summer School

GENERAL INFORMATION

LEX is an intensive, 8 hours programme addressing the management of legal resources in the Semantic Web, that requires participants' total dedication and intellectual commitment. The programme learning process assists participants to develop knowledge, skills and capabilities in using and managing a shared and interoperable standard for legislative documents and enabling access, communication, processing, modelling, representing and integrating of legislative IT technologies in an open and cooperative framework.

The course is in English

SCHOLARSHIP OPPORTUNITIES

3 scholarships for students will be available, partially covering the course registration fee, depending on the request (travel and accommodation not included)

ACCOMMODATION

Accommodation will be at the participant's expenses. Information about local possibilities will be provided to requesting participants. See the website for further information.

STUDENT FACILITIES AND RESOURCES

University computer facilities (laboratory, Wi-Fi), libraries and study area will be available for participants to the Lex Summer School. Social initiatives will be organized for participants, including a social dinner.
